

Our Senior Management Team Run for Children in Togo

On Sunday 28th April, 5 members of our Senior Management Team joined 1000's of people in Stratford for the Shakespeare's half marathon.

The day started very early with our not so athletic Directors building themselves up for the biggest personal challenges of their lives.

The reason for such an early start, they had all committed in January to compete in a half marathon to raise money for the Lyreco for Education (LFE) programme which has been supporting the welfare and education of young children in Togo since 2011.

Despite their lack of athleticism they all finished the race with respectful times and have managed to raise over £3500 in sponsorship to put towards LFE.

The aim of the LFE programme is to improve the education for children in the Togo region providing them with better access to higher quality schooling. Since the project was launched in 2011, the LFE programme has helped improve the education of 32,000 children across 200 villages in the region.
